Summary

Passionate Full Stack Developer with expertise in modern web technologies like React.js, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB. Experienced in building scalable e-commerce platforms, real-time applications, and automated systems, including email automation and WhatsApp MCP servers, with a proven track record of delivering seamless user experiences and optimized performance at companies like Nector Foods and Nambix Technology.

Experience

Nector Foods Private Limited

Feb-2025

Full Stack Developer

Delhi

- Developing an e-commerce platform using Next.js and Node.js, ensuring a seamless user experience and efficient backend operations.
- Built an email automation system in Python to categorize incoming emails and generate draft responses, streamlining communication workflows.
- Designed and implemented a WhatsApp MCP server to enhance customer engagement through automated interactions, improving connectivity with users.

Nambix Technology

July 2023 - Oct 2023

Junior Frontend Developer

Gurugram

- Developed and maintained a subtitling platform using Uppy and Peak.js libraries in a React.js environment, streamlining the process of uploading and editing media files with real-time updates.
- Created a fully functional platform for finding and hiring linguists, utilizing Next.js, React.js, Tailwind CSS, and Formik for seamless user experience and efficient form handling, ensuring responsive design and optimized performance.

Lingual Consultancy

January 2023 - July 2023

Frontend Intern

Gurugram

- Played a key role in developing a web application designed specifically to connect and hire linguists, using Laravel, jQuery later project shifted to React
- Assisted in crafting responsive and intuitive user interfaces in React, utilizing Formik for robust form handling and validation, ensuring a seamless experience for users searching for and recruiting linguists.

Samsung Display Noida

January 2021 - January 2022

Associate || Korean Interpreter

Noida

- Facilitated seamless communication between Korean and Indian engineering teams, acting as a Korean interpreter to bridge language barriers and ensure clear collaboration.
- Collaborated with the IT Testing Team to perform web testing, utilizing JIRA to track and manage testing processes efficiently

Education

Korean Cultural Center	2020	Sri Aurobindo Collage	2016 -2018
Completed Intermediate Level Certification Course in Korean Language and literature.		Political Science	

Projects

Trilingual India | Online Teaching Dashboard

Tech Stack : Next.js, Redux, Tailwind, Full Calender, Node.js, Express.js MongoDB, Socket.io

🔗 [Project Link](#)

Developed a comprehensive educational platform using Next.js, Redux, Tailwind, Node.js, Express.js, MongoDB, and BA [Socket.io](#), featuring an Admin Panel for managing batches, homework assignments, teacher feedback, class scheduling, and a calendar for events. The platform supports assignment submissions with text, Cloudinary-hosted images, and PDF files, allowing diverse submission formats.

Real-Time Chat Application

Tech Stack : Next.js, Redux, Tailwind, Node.js , Express.js MongoDB, Socket.io

🔗 <https://chat-app-full-stack.vercel.app/>

Developed a feature-rich real-time messaging application using Next.js for the frontend and Node.js with Express for the backend, backed by a MongoDB database. Enabled users to share media such as photos and videos, which are securely stored in Cloudinary. Integrated real-time messaging functionality, providing seamless communication between users, with a focus on performance and scalability.

Skills

Languages Known	Frameworks/Libraries	Database	Miscellaneous
JavaScript, Node.js, Python, HTML5	React.js, Next.js, Tailwind CSS, Bootstrap, Redux, Express.js, Socket.io	MongoDB, Mongoose, PostgreSQL	MVC, RESTful Architecture, Docker, Postman, Swagger Git, GitHub, AWS
